### ELON MUSK – A TRUE VISIONARY

1 Elon Reeve Musk was born on 28 June 1971 in Pretoria, South Africa. In 1988, Musk left South Africa because he was unwilling to attend the compulsory military service and also because he wanted to be explore the greater business opportunities available in the USA. Musk then went on to receive a Bachelor's Degree in Physics and Economics.

2 From a young age, Elon was already a great entrepreneur. At age 12 he created a video game and sold it to a computer magazine. By 28 years, he had already sold his first company called Zip2. He went on to start X.com, which later became Paypal. Elon's next two big ventures were SpaceX and Tesla.

3 Musk believed that for life to survive, humanity had to become a multi-planet species. He founded Space Exploration Technologies (SpaceX) to make affordable rockets for fast transportation between cities on Earth and for building bases on the Moon and Mars. In May 2020, NASA and SpaceX launched two astronauts, Robert Behnken and Doug Hurley into space.

4 Musk was interested in the possibilities of electric cars, so he became one of the funders of Tesla Motors (renamed Tesla). Elon wanted to prove that electric cars were better than traditional engines, so his team developed the world's best electric cars. They were not only kind to the environment, but also included some amazing technology. They developed the Model S car, which included an autopilot mode. This car can follow road markings and make sure there is a safe distance between itself and other cars.

5 Elon Musk is one of the great innovators of our time. His astounding success has him being compared to other visionary businessmen, such as Steve Jobs, Henry Ford and Bill Gates. He ranks as the second richest person on *Forbes*.
