Question 5

Question	Answer	Mark allocation	Level
5.1	Paragraph: <u>Intro:</u> The Keboes farms are found in the dry Northern Cape and due to the dryness there, the lack of skills amongst the workers and unfair prices for their fruit, the farms were not as successful as they could be. <u>Body:</u> When the Keboes farmers joined Fairtrade they received a lot of much needed help: a fair price for the fruit that covered the costs of producing it, a more constant demand for the fruit as Fairtrade helps to export it for the European winter; training so that all the workers are better able to carry out their	5	High

	jobs, and various community projects involving schooling, sporting amenities and improved health care. <u>Conclusion:</u> Belonging to Fairtrade has had a very positive impact on the Keboes farms because they practice fair trade which improves the lives of the whole community in many different ways.
